

MEMORANDUM

To: Northborough Design Review Committee
c/o Laurie Connors
Northborough Planning Department

Date: 5/1/24

From: Janet Slemenda

Project: Northborough Fire Station

Job No: 22314

Subject: Proposed Exterior Materials for Northborough Fire Station

The photograph below represents the Basis of Design finishes selected by the Fire Station Building Committee for incorporation into the new Northborough Fire Station exterior design. These physical samples were presented to the Design Review Committee at the proposed site on 3/20/24.

Basis of Design materials will be specified for this project along with comparable "equivalent" products as required by Massachusetts public bid laws. Final material selection will be made during the construction submittal process.

Basis of Design:

- Main "red" brick: Bowerston Harbour Collection Harvest Blend
- Accent brick: Palmetto Brick Walnut
- Base stone course: Arriscraft Adair Limestone Sepia Fine Dressed Veined
- Exterior windows/doors/accent metal on walls to be green similar to Pac-Clad Forest Green
- Standing seam metal roof to be a warm gray/brown tone similar to Pac-Clad Graphite.
